

Malcolm Roberts
Lead Senate Candidate – Queensland

Friday, 10 May 2019

Mr. Greg Hoffman PSM
Executive Officer
NWQROC
nwqroc@carpentaria.qld.gov.au

Dear Mr. Hoffman:

As a candidate personally and on behalf of Pauline Hanson's One Nation Party I give this written commitment to supporting the NWQROC 2019 strategy/plan summarised in your organisation's 2019 Federal Election Platform discussed at your Board meeting yesterday.

If I am re-elected into the next parliament our party and I will support your plan and member councils particularly in seeking federal funding, passing of enabling or supportive legislation and in reforming the federal control of councils and their management from Canberra to restore our constitution and competitive federalism.

Senator Hanson has a long history of supporting the bush and our regions and in our party we are aware of the special challenges you face and the support you need.

Senator Hanson and I have a proven record of listening to constituents, understanding the issues and then speaking out strongly to say what needs to be said and to do what needs to be done.

We are aware of the need to protect and enhance the wealth creating qualities of regional Queensland that bless this state economically as a potential energy, food and minerals powerhouse and as a popular and lucrative tourist industry.

We are aware of the special challenges, adversities and threats to the regions' economic performance and are aware of the need to remove Canberra's foot currently pressing on regional Queensland's throat.

We commit to continuing to listen to understand regional needs and to work honestly and hard to enable and support regions to restore and fulfil their potential to thrive. We will assist your councils to return to the basics of creating a business and social environment in which people can freely use their creativity and initiative to flourish.

We support and are committed to NWQROC's strategy/plan.

Sincerely,

Malcolm Roberts
Lead Senate Candidate
Pauline Hanson's One Nation Party
